**OUTSIDE - BACK COVER/
INSIDE - PAGE 3**
99mm x 210mm

**OUTSIDE - FRONT COVER/
INSIDE - PAGE 4**
99mm x 210mm

General Information

A 6pp DL has each of the pages set to 99mm however, you need to allow an extra 3mm quiet area on the Left hand side of page 4 and right hand side of page 5 as they need to trim a couple of mm off for the folding.

Bleed Area

Bleed all edges by 3mm. This area will be trimmed off.
Extend your design into this area to avoid white gaps that could occur due to paper movement.

Quiet Area

Quiet Areas all edges 5mm - Keep any text or important elements away from this area. This area has a safe distance to allow for any paper movement as the trimming and binding can come in further than expected.

Trim Area

Also referred to as the outer edge. This area is where the paper will be trimmed to the final size.
